

December 1, 2011

Effective January 1, 2012, HP will increase the prices of toner cartridges by approximately 2 percent. In addition to this 2 percent increase, HP will increase list prices on 27 select HP legacy toner cartridges.

This move is a result of HP's standard portfolio management process. As part of this process HP as manufacturer regularly reviews pricing for all its products and makes adjustments, as appropriate.

As always, HP is committed to developing products and services that meet its customers' needs. This includes HP toner cartridges, which will continue to provide superior value, reliability and high-quality output.

Please contact the HP Authorized Partner and/or supplies partner you purchase from for information regarding specific pricing and availability. All HP Partners are free to set their own resale price."
